YOUR MONTH AT A GLANCE

Lower Body - choose a track · Cardio - choose a track · Upper Body - choose a track · Mobility - choose a track · Complete Rest · Core - choose a track · Active Recovery · Track Check · Build Your Next Schedule

START HERE

Every training day offers the same slot with two ready-made options: Track A when you have space and energy, Track B when time or room is short. The structure of the month stays fixed, only the version of the session changes, so the schedule adapts without falling apart.

WHO THIS IS FOR

Adults with an irregular schedule - travel, shift work, small living spaces - who want a stable weekly shape and a legitimate shorter option instead of skipping.

EQUIPMENT

None required. Optional: a mat or towel, a stable chair, a step, and a backpack with books for a little added load on Track A.

INTENSITY GUIDE

RPE 1-2	Rest or very easy movement
RPE 3-4	Easy, conversation feels natural
RPE 5	Moderate, working but controlled
RPE 6	Challenging, never sharp or unstable

HOW TO USE THE CALENDAR

- Each day, choose Track A or Track B before you start and circle it on the page.
- Warm up for five minutes either way.
- Track B is a complete session, not a failure.
- Keep the rest days as written, and never combine both tracks in one day.

FIVE-MINUTE WARM-UP

1 minute	March or step-touch in place	Settle into an easy rhythm
1 minute	Arm circles, shoulder rolls, wall slides	Loosen the upper body
1 minute	Hip circles and easy hip hinges	Move the hips comfortably
1 minute	Half-depth squats and heel raises	Keep the depth pain-free
1 minute	Faster march with arm swings	Finish a little warmer

BEFORE EACH SESSION

- ☐ Clear the floor
- ☐ Stable chair or wall
- ☐ Water within reach
- ☐ Pain-free starting position

THREE-MINUTE COOL-DOWN

1 min

Slow the march until breathing settles.

1 min

Stretch calves, chest, and hips gently.

1 min

Take slow breaths and notice how the session felt.

Warm-up, modifications & progressions

WARM-UP BEFORE EVERY TRAINING DAY

Minute 1	March or step-touch in place	1 minute	Raise body temperature without rushing
Minute 2	Arm circles, shoulder rolls, wall slides	1 minute	Free the shoulders and upper back
Minute 3	Hip circles and easy hip hinges	1 minute	Prepare hips and comfortable depth
Minute 4	Half-depth squats and heel raises	1 minute	Mobilise ankles and lower legs
Minute 5	Faster march with arm swings	1 minute	Finish warmer while breathing steadily

BEGINNER MODIFICATIONS

- Use Track B for the whole first two weeks.
- Replace floor push-ups with incline or wall push-ups on either track.
- Hold a chair for balance during split squats.
- Reduce every round by 2 repetitions and keep the schedule intact.
- Shorten holds by 10 seconds.

OPTIONAL PROGRESSIONS

- Move one session per week from Track B to Track A.
- Add one round to Track A once the session stays within the listed RPE.
- Add a loaded backpack to squats and hip hinges only after four controlled sessions.
- Increase pickups by one before increasing total walk time.
- Progress only after every repetition stays steady and pain-free.

PRACTICAL MOVEMENT SUBSTITUTIONS

Floor work	Use a standing version or stable support
Lunges	Choose supported reverse toe taps or sit-to-stands
Brisk intervals	March comfortably with longer recovery
