YOUR MONTH AT A GLANCE

Plan & Move · Cardio Block · Strength Block · Mobility Block · Complete Rest · Full-Body Block · Review & Restore · Habit Audit Session · Plan the Next Month

START HERE

A planner built around the habit, not only the workout. Each week opens with a short planning block, every training day carries a fixed slot to write down, and each week closes with a check-in. The sessions stay short and equipment-free so the plan survives a busy week.

WHO THIS IS FOR

Adults who already know roughly what to do but struggle to make training happen consistently, and who want a printable page that holds both the plan and the record of what was actually done.

EQUIPMENT

None. A pen for the planner columns. Optional: a mat or towel for floor work and a stable chair for support.

INTENSITY GUIDE

RPE 1-2	Rest or very easy movement
RPE 3-4	Easy, conversation feels natural
RPE 5	Moderate, working but controlled
RPE 6	Challenging, never sharp or unstable

HOW TO USE THE CALENDAR

- Before Day 1, write your training slot for each day of the week in the margin.
- Follow the days in order, tick the box once the session is done, and note the actual time you trained.
- Keep the planning day at the start of each week short - five minutes is enough.
- Missed days stay missed; do not stack two sessions into one.

FIVE-MINUTE WARM-UP

1 minute	Easy march in place	Settle into an easy rhythm
1 minute	Shoulder rolls and arm circles	Loosen the upper body
1 minute	Hip circles and gentle hip hinges	Move the hips comfortably
1 minute	Half-depth squats	Keep the depth pain-free
1 minute	Brisker march with arm swings	Finish a little warmer

BEFORE EACH SESSION☐ Clear the floor☐ Stable chair or wall☐ Water within reach☐ Pain-free starting position**THREE-MINUTE COOL-DOWN****1 min**

Slow the march until breathing settles.

1 min

Stretch calves, chest, and hips gently.

1 min

Take slow breaths and notice how the session felt.

Warm-up, modifications & progressions

WARM-UP BEFORE EVERY TRAINING DAY

Minute 1	Easy march in place	1 minute	Raise body temperature without rushing
Minute 2	Shoulder rolls and arm circles	1 minute	Free the shoulders and upper back
Minute 3	Hip circles and gentle hip hinges	1 minute	Prepare hips and comfortable depth
Minute 4	Half-depth squats	1 minute	Mobilise ankles and lower legs
Minute 5	Brisker march with arm swings	1 minute	Finish warmer while breathing steadily

BEGINNER MODIFICATIONS

- Cut every session to two rounds and keep the same slots in the planner.
- Replace floor push-ups with wall or incline push-ups.
- Hold a chair for balance during split squats.
- Shorten the cardio blocks to 12-15 minutes and keep the frequency.
- Split a session in two halves at different times of the day.

OPTIONAL PROGRESSIONS

- Add one round once the whole session stays within the listed RPE.
- Add 2 repetitions or 10 seconds to holds each week, not both at once.
- Extend a cardio block by 3 minutes before making it faster.
- Add a fifth planned slot to the week only after four weeks of hitting four.
- Progress only after every repetition stays steady and pain-free.

PRACTICAL MOVEMENT SUBSTITUTIONS

Floor work	Use a standing version or stable support
Lunges	Choose supported reverse toe taps or sit-to-stands
Brisk intervals	March comfortably with longer recovery
