Warm-up, modifications & progressions

WARM-UP BEFORE EVERY TRAINING DAY

Minute 1	Easy march	Raise body temperature without rushing.
Minute 2	Shoulders & arms	Roll shoulders, then make small-to-large arm circles.
Minute 3	Hips & knees	Practice shallow hip hinges and comfortable chair squats.
Minute 4	Ankles & calves	Alternate heel digs and slow calf raises.
Minute 5	Build the pace	March slightly faster while keeping breathing controlled.

BEGINNER MODIFICATIONS

- Reduce each set by 2–4 repetitions or each interval by 15–30 seconds.
- Use a wall or stable chair for balance during squats, lunges, and standing core work.
- Choose wall push-ups instead of incline or floor versions.
- Replace floor exercises with standing reaches, seated marches, or wall planks.
- Split one session into two shorter blocks on the same day.

OPTIONAL PROGRESSIONS

- Add one set only after completing every repetition with steady form.
- Add 1–2 repetitions per exercise while staying within the listed RPE range.
- Increase a cardio work interval by 10–15 seconds while keeping recovery unchanged.
- Use a slightly lower push-up surface or hold light water bottles when appropriate.
- Never progress pain. A harder version should feel challenging, not sharp or unstable.

SIMPLE MOVEMENT SUBSTITUTIONS

Floor core	Standing wall reaches or seated knee lifts
Lunges	Supported reverse toe taps or sit-to-stands
Brisk intervals	Comfortable marching with longer recovery
