START HERE

One month laid out as four blocks with a clear purpose each: build the base, add volume, meet a controlled challenge, then consolidate. Sessions stay short and equipment-free, and the last two days close the month with a benchmark and a review.

WHO THIS IS FOR

Adults who like to see a whole month on one page and want each week to have an identifiable purpose rather than a flat repetition of the same load.

EQUIPMENT

None. Optional: a mat or towel, a stable chair, and a step for elevated push-ups.

INTENSITY GUIDE

RPE 1-2	Rest or very easy movement
RPE 3-4	Easy, conversation feels natural
RPE 5	Moderate, working but controlled
RPE 6	Challenging, never sharp or unstable

HOW TO USE THE CALENDAR

- Print the month, pin it somewhere visible, and tick each day as you go.
- Warm up for five minutes before every session.
- Week 3 is the busiest block and Week 4 deliberately lighter - resist swapping them.
- Keep every rest day.

FIVE-MINUTE WARM-UP

1 minute	March or step-touch in place	Settle into an easy rhythm
1 minute	Arm circles, shoulder rolls, wall slides	Loosen the upper body
1 minute	Hip circles and easy hip hinges	Move the hips comfortably
1 minute	Half-depth squats and heel raises	Keep the depth pain-free
1 minute	Faster march with arm swings	Finish a little warmer

BEFORE EACH SESSION

- ☐ Clear the floor
- ☐ Stable chair or wall
- ☐ Water within reach
- ☐ Pain-free starting position

THREE-MINUTE COOL-DOWN

1 min

Slow the march until breathing settles.

1 min

Stretch calves, chest, and hips gently.

1 min

Take slow breaths and notice how the session felt.

Warm-up, modifications & progressions

WARM-UP BEFORE EVERY TRAINING DAY

Minute 1	March or step-touch in place	1 minute	Raise body temperature without rushing
Minute 2	Arm circles, shoulder rolls, wall slides	1 minute	Free the shoulders and upper back
Minute 3	Hip circles and easy hip hinges	1 minute	Prepare hips and comfortable depth
Minute 4	Half-depth squats and heel raises	1 minute	Mobilise ankles and lower legs
Minute 5	Faster march with arm swings	1 minute	Finish warmer while breathing steadily

BEGINNER MODIFICATIONS

- Run Week 3 at the Week 2 dose and keep everything else unchanged.
- Use wall or incline push-ups throughout.
- Hold a chair for balance during split squats.
- Remove the fourth exercise from any circuit.
- Shorten walks to 12-15 minutes.

OPTIONAL PROGRESSIONS

- Add one round to the Week 3 circuits only if Week 2 stayed within the listed RPE.
- Extend the steady walk by 5 minutes before adding pickups.
- Add 10 seconds to holds each week rather than changing the exercise.
- Repeat the month with Week 2 as the new starting dose.
- Progress only after every repetition stays steady and pain-free.

PRACTICAL MOVEMENT SUBSTITUTIONS

Floor work	Use a standing version or stable support
Lunges	Choose supported reverse toe taps or sit-to-stands
Brisk intervals	March comfortably with longer recovery
