YOUR MONTH AT A GLANCE

Strength A · Cardio · Mobility · Strength B · Complete Rest · Cardio & Core · Active Recovery · Cardio & Review

START HERE

The same seven-day shape every week: two strength days, two cardio days, one mobility day, one full rest day, one active recovery day. Only the dose changes from week to week, so the routine becomes predictable and the progression stays visible.

WHO THIS IS FOR

Adults who want a weekly rhythm they can memorise and repeat beyond the thirty days, and who prefer a fixed structure to a new session every day.

EQUIPMENT

None. Optional: a mat or towel for floor work, a stable chair for support, and a step for elevated push-ups.

INTENSITY GUIDE

- RPE 1-2

Rest or very easy movement
- RPE 3-4

Easy, conversation feels natural
- RPE 5

Moderate, working but controlled
- RPE 6

Challenging, never sharp or unstable

HOW TO USE THE CALENDAR

- Assign each of the seven slots to a fixed weekday and keep those weekdays for the whole month.
- Warm up for five minutes before every session.
- Days 29 and 30 open a fifth week at the week-four dose.
- If a week goes badly, repeat it at the same dose rather than jumping ahead.

FIVE-MINUTE WARM-UP

- 1 minute

March or step-touch in place

Settle into an easy rhythm
- 1 minute

Arm circles and shoulder rolls

Loosen the upper body
- 1 minute

Hip circles and easy hip hinges

Move the hips comfortably
- 1 minute

Half-depth squats

Keep the depth pain-free
- 1 minute

Faster march with arm swings

Finish a little warmer

BEFORE EACH SESSION

- ☐ Clear the floor
- ☐ Stable chair or wall
- ☐ Water within reach
- ☐ Pain-free starting position

THREE-MINUTE COOL-DOWN

- 1 min

Slow the march until breathing settles.
- 1 min

Stretch calves, chest, and hips gently.
- 1 min

Take slow breaths and notice how the session felt.

Warm-up, modifications & progressions

WARM-UP BEFORE EVERY TRAINING DAY

Minute 1	March or step-touch in place	1 minute	Raise body temperature without rushing
Minute 2	Arm circles and shoulder rolls	1 minute	Free the shoulders and upper back
Minute 3	Hip circles and easy hip hinges	1 minute	Prepare hips and comfortable depth
Minute 4	Half-depth squats	1 minute	Mobilise ankles and lower legs
Minute 5	Faster march with arm swings	1 minute	Finish warmer while breathing steadily

BEGINNER MODIFICATIONS

- Run every week at the Week 1 dose until it feels comfortable.
- Use wall or incline push-ups instead of floor push-ups.
- Hold a chair for balance during split squats.
- Cut walks to 12-15 minutes and keep the same weekly shape.
- Drop the fourth exercise from any strength day.

OPTIONAL PROGRESSIONS

- Move to the next week's dose only when the current one stays within the listed RPE.
- Add one round before adding repetitions.
- Add pickups to the cardio day one at a time.
- Repeat the four-week block with the Week 4 dose as the new Week 1.
- Progress only after every repetition stays steady and pain-free.

PRACTICAL MOVEMENT SUBSTITUTIONS

Floor work	Use a standing version or stable support
Lunges	Choose supported reverse toe taps or sit-to-stands
Brisk intervals	March comfortably with longer recovery

Weekly review & recovery

WEEK 1	Which sessions felt most approachable?	What will make next week easier?
WEEK 2	Where did technique improve?	Did the recovery days feel sufficient?
WEEK 3	What changed in energy or confidence?	Which modification worked best?
WEEK 4	What routine is worth continuing?	Choose one realistic next-month goal.

RECOVERY CHECKLIST

☐ Sleep routine	☐ Regular meals	☐ Water available
☐ Gentle movement	☐ Rest day protected	☐ No sharp pain

Finish safely. Keep moving forward.

SAFETY DISCLAIMER

This plan provides general fitness information, not medical advice. Consult a qualified health professional when appropriate. Stop for chest pain, faintness, unusual shortness of breath, or sharp or worsening pain. Results vary and no outcome is guaranteed.
